Program Structure

- One-on-one mentoring, roughly once a month (schedule left to every mentor-mentee pair). Mentees will develop a close relationship with another professional woman further along in her career who can help the mentee set goals, network, and develop career plans and learning opportunities. Mentors have a chance to create a "cross-generational" relationship to energize and stimulate their own career journeys.
- Additional growth and education opportunities during group events scheduled throughout the year, including mentor training, a mentoring Launch Party, opportunities for mentees to meet and share their experiences, and whole group meetings to collaborate and share, as well as a wrap-up meeting and Graduation Celebration. These meet-ups will include education, networking, and sharing among members so you can benefit from the dynamic synergy of the group and expand your knowledge base even more.
